EDUCATION

JSS ACADEMY OF TECHNICAL EDUCATION

MASTER IN COMPUTER APPLICATION
Nov 2023 | Sept 2025, Bangalore
Cum. GPA: 8.89 / 10.0

BANGALORE INSTITUTE OF MANAGEMENT STUDIES

BACHELOR OF COMPUTER
APPLICATION
Jul 2020 | Aug 2023, Bangalore
Cum. GPA: 8.17 / 10.0

COURSEWORK

Programming Fundamentals
Web Designing
Software Engineering
Operating System
Networking
Unix Tools and Scripting

SKILLS

TECHNICAL

- React.js
- JavaScript
- Node.js
- Next.js
- Tailwind CSS
- PHP
- SQL
- Mongo DB
- PostgreSQL

TOOLS FAMILIAR

- Visual Code
- Github (Git)
- Microsoft SQL Server
- Developer Console
- pgAdmin
- JarvisLabs
- Jupyter Lab

CERTIFICATION

- Mern Stack certification from Dhee Coding Lab

EXPERIENCE

BONI | FULL STACK + DEVOPS INTERN

Sept 2025 - Nov 2025 | Bengaluru, IN

- Worked on **Next.js**, **Node.js**, REST APIs, RabbitMQ, ArgoCD, Kubernetes, and **Jenkins** for multiple production systems.
- Built and maintained the internal admin panel used for operations and workflow management.
- Developed an **AI-powered Reddit automation system** that uses agentic AI to generate contextual posts and comments and publishes them automatically.
- Contributed across the full stack, writing and reviewing code for frontend and backend.

JSS ACADEMY OF TECHNICAL EDUCATION & JSS MEDICAL COLLEGE | FULL STACK DEVELOPER + CLOUD INTERN

Mar 2025 - Aug 2025 | Bengaluru & Mysuru, IN

- Designed and developed a full-stack web application "**AISHA-Artificial Intelligence powered Students Health Assessment**" for student health monitoring.
- Built scalable modules using **Next.js**, **REST APIs**, and **postgres sql** database with **role-based access** and notifications.
- The platform is already deployed in **Azure**, **GCP**, improving speed, scalability, and real-time monitoring.
- Collaborated with doctors and professors, delivering a practical healthcare solution while strengthening teamwork and problem-solving skills.
- Received **copyright approval** from the **Government of India** for this software
Application No : SW-27477/2025-CO

DREAMFORCE TECHNOLOGIES PVT LTD | WEB DEVELOPER & SYSTEM CONSULTANT

Nov 2024 - Jan 2025 | Bengaluru, IN

- Consulted with stakeholders to gather requirements and developed a web portal and backend system for managing internship operations.
- Built an admin dashboard to generate digital internship certificates with secure PDF automation and role-based access control.
- Learned and applied the SDLC, collaborated with colleagues to improve internal processes, and implemented the **React Context API** for efficient state management.

PROJECTS

DETECTION OF OSTEOPOROSIS USING DEEP LEARNING

Feb 2025 - July 2025 | India

- Built a PyTorch-based **EfficientNet-B4** model to classify X-ray images for early detection of Osteopenia and Osteoporosis.
- Implemented preprocessing, training pipeline, and evaluation to achieve high diagnostic accuracy.

SHAREABITE

Jan 2025 - Mar 2025 | India

- Developed a **Next.js**, **Prisma**, **PostgreSQL** platform for managing food donations with **Google OAuth** and **Razorpay** integration.
- Built an admin dashboard with automated email alerts and volunteer assignment workflow using **ShadCN** and **Framer Motion**.
